FOUNDATION VENT COVER

SEAL OFF OLD FOUNDATION VENTS QUICKLY AND CLEANLY.

Made in North Carolina and molded from durable, UV-resistant plastic, this vent cover is designed specifically for homes transitioning to a fully encapsulated crawl space. Its rigid, impact-resistant construction and textured matte finish provide a clean, professional look that blends seamlessly with exterior masonry.

KEY FEATURES:

- Made from premium plastic for outstanding UV, weather, and impact resistance
- Designed for exterior use when permanently sealing vents for crawl space encapsulation
- Fits standard 16″ × 8″ foundation vent openings (overall size 18.25″ × 10.25″)
- Low-profile 0.5″ depth – typically installs directly over existing vents
- Helps deter rodents and pests when sealing aging or damaged vents
- Includes Christmas tree fasteners for secure mounting
- Recommended for use with Lexel Adhesive Caulk to create an air and weather seal
- Available in black or brown
